

Dear Sirs, I write in reference to K-Love Radio. I have lived and worked in Summit County Colorado for seven years and value greatly this Radio station. If it were to be replaced by an LPFM broadcaster, providing other programming, It would do this area a great dis-service! The programing is in the public interest due to the family nature of it's content, my family and I can listen to it without fear of negative messages and commertials!! Thank you for your time and concideration of this matter.
